PATTERN BOHEMIA
"I especially love the sunny glass light fixtures" of Studio Dunn, says Bonnie Sharp, photographed in her living room, in front of "Sally" her own home design.

MAD FOR MOD

Bonnie Sharp is crazy for **Studio Dunn** (studiodunn.com), an up-and-coming Rhode Island furnishings company. Founder Asher Dunn is reinterpreting mid-century modern classics such as Heywood Wakefield, using woods, metals, glass and ceramics. "These are reminiscent of mod furnishings but never before seen in sustainable [materials] crafted by hand, like they're from another era," says Sharp, a textile designer (studiobon.net).
